

SPECIALTY GUIDELINE MANAGEMENT

TIKOSYN (dofetilide) dofetilide (generic)

POLICY

I. INDICATIONS

The indications below including FDA-approved indications and compendial uses are considered a covered benefit provided that all the approval criteria are met and the member has no exclusions to the prescribed therapy.

A. FDA-Approved Indications

1. Maintenance of normal sinus rhythm (delay in time to recurrence of atrial flutter/atrial fibrillation [AF/AFI]) in patients with AF/AFI of greater than one week duration who have been converted to normal sinus rhythm
2. Conversion of AF/AFI to normal sinus rhythm

B. Compendial Uses

1. Supraventricular tachycardia
2. Ventricular tachyarrhythmia

All other indications are considered experimental/investigational and not medically necessary.

II. CRITERIA FOR APPROVAL

1. **Atrial Flutter/Atrial fibrillation**

Authorization of 12 months may be granted for the maintenance of, or conversion to, normal sinus rhythm after atrial flutter or atrial fibrillation.

2. **Supraventricular tachycardia**

Authorization of 12 months may be granted for treatment and prevention of supraventricular tachycardia.

3. **Ventricular tachyarrhythmia**

Authorization of 12 months may be granted for treatment and prevention of ventricular tachyarrhythmia.

III. CONTINUATION OF THERAPY

All members (including new members) requesting authorization for continuation of therapy must meet ALL initial authorization criteria.
