

COVID-19 Update

CVS Pharmacy Provides Drive-Through COVID-19 Testing

The State Health Plan is making members aware that CVS Pharmacy is now offering drive-through COVID-19 testing at select North Carolina CVS Pharmacy locations. These sites will utilize self-swab tests.

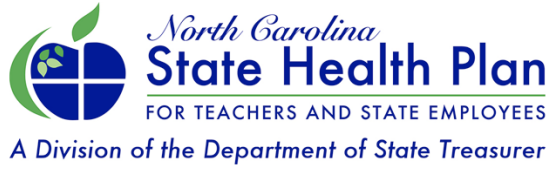

As a reminder, the Plan is waiving the the cost of the test, which means there will be no cost to the member.

Members must register in advance to schedule an appointment. Members will need to follow instructions provided during registration process, which includes a questionnaire prior to scheduling an appointment.

Members will be required to stay in their cars and will be directed to the pharmacy drive-through window, where they will be provided with a test kit and given instructions. A CVS Pharmacy team member will observe the self-swab process to ensure it is done properly. Results will be available in about three days.

A complete list of CVS Pharmacy drive-through test sites can be found [here](#).

For more information regarding COVID-19, please visit the Plan's [website](#).
