Humana Receives a 4.5 Star Rating

The Centers for Medicare & Medicaid Services (CMS) has released the 2023 Star Ratings for Medicare Advantage (Part C) and Medicare Part D prescription drug plans.

The State Health Plan is excited to announce that Humana has received a **4.5-star rating!**

The CMS rating system measures the excellence of Medicare plans nationally each year. A plan may receive a rating between one and five stars, with five stars representing the highest rating. CMS uses information from member-satisfaction surveys, health plans, and health care providers to assign overall star ratings to plans.

This new, improved rating solidifies that the Humana Medicare Advantage Plans (90/10) which the State Health Plan offers are high quality plans provided by a partner that is committed to removing health care barriers for members. That is achieved by making health care more accessible through programs designed to keep you healthy and happy.

This rating success also impacts your health care costs. The better the rating, the lower your cost for health care.
