Request for Clarification #4

Regarding UMR's response to Attachment A: Pricing, the Plan requests UMR to clarify the following by responding via email no later than 3:00 p.m. ET on Wednesday, November 16, 2022 to Vanessa Davison, vanessa.davison@nctreasurer.com, SHP Contract, shpcontracting@nctreasurer.com, and Stephen Kuhn, SKuhn@segalco.com.

1. In your response to Request for Clarification #3, you indicated that, "The current in-network discount is estimated at 50.1%. The projected in-network discount for January 2025 is estimated at 54.1%."

Identify the components that make up the 4% improvement in discounts between the "current in-network discount" in the claims repricing and the estimated network discount for 2025. Indicate the share of the 4% discount improvement that is attributed to: (1) contracted discount improvements to enforce provider contracts; (2) near-future improvements bound by letters of intent; (3) purely projected improvements; or (4) specify any other improvement. If the entire 4% is projected improvements that are not yet contracted or bound by letter of intent, please specify that.
